The real property that you are about to purchase is located in the **HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 36** (the "District") and may be subject to district taxes or assessments. The district may, subject to voter approval, impose taxes and issue bonds. The district may impose an unlimited rate of tax in payment of such bonds. The current rate of the District property tax is \$0.2308 on each \$100 of assessed valuation for debt service purposes. The total amounts of bonds payable wholly or partly from property taxes, excluding refunding bonds that are separately approved by the voters, approved by the voters are:

\$ 34,500,000.00 for water, sewer, and drainage facilities.

The aggregate initial principal of all such bonds issues are:

\$ 30,885,000.00 for water, sewer, and drainage facilities.

The District has the authority to adopt and impose a standby fee on property in the District that has water, sanitary sewer, or drainage facilities and services available but not connected and which does not have a house, building, or other improvement located thereon and does not substantially utilize the utility capacity available to the property. An unpaid standby fee is the personal obligation of the person that owned the property at the time of imposition and is secured by a lien on the property. Any person may request a certificate from the District stating the amount, if any, of unpaid standby fees on a tract of property in the district.

The District is located wholly in the extraterritorial jurisdiction of the City of Houston. Texas law governs the ability of a municipality to annex property in the municipality's extraterritorial jurisdiction and whether a district that is annexed by the municipality is dissolved. The District has entered into a strategic partnership agreement with the City of Houston. This agreement may address the timeframe, process, and procedures for the municipal annexation of the area of the District located in the municipality's extraterritorial jurisdiction.

The purpose of the District is to provide water, sanitary sewer service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct parks and recreational facilities services. The cost of district facilities is not included in the purchase price of your property.
